How to SAVE Money and MAKE Money

(Economy is Wealth).

We have a credit department where you may deposit as much or as little as you please. You get four per cent interest as against the usual three or three and a half per cent. You withdraw your money any day—without a minute's notice. There is no banking business, no drawing of cheques to tempt you to spend the money at random.

Whatever you buy at Macy's can be charged up to your account and a monthly statement is rendered to you.

Thus you combine the convenience of a credit system with Macy's low cash prices, and you get four per cent on your money besides.

R. H. Macy & Co. sell only for cash. You who buy save the money that other stores lose on bad debts and expensive bookkeeping departments.

We buy for cash, sell for cash, we buy and sell at the lowest prices made possible by the biggest retail dealings in the world. You get the benefit. You get the benefit of our saving, and you get the benefit of the needs of manufacturers who must offer the best inducements to a cash establishment.

Get the details at our credit department in our new great store, 34th to 35th street on Broadway. Write a letter, or better, visit and examine the marvellous and greatest of American retail enterprises, the original department store, and now the *greatest retail enterprise in the world*.

Let the wise housewife, the conscientious, sensible mother think over this proposition:

Various sums are received for household use. Sometimes the money comes from rents, mortgages, stocks, in the shape of dividends. More often it comes as wages or salary.

That money can be deposited with Macy's and draw interest from the moment it is deposited. As goods are actually required, they can be purchased and charged to the account. Every dollar that is not spent is always drawing interest.

And at Macy's everything can be purchased, and everything of the highest quality, and at less expense than elsewhere.

We instituted our cash system for the benefit of our best customers, the provident, far seeing, who pay as they go. Such customers will always be customers, and we think of them in all our plans, giving the best inducements in quality and price. As a further benefit for such permanent custom we have instituted this credit department. There your money draws compound interest; it settles your bills. It *literally works for you while you work at home or shop, at the world's greatest store.*

A HALT OF BRIDGE TRAINS.

Manish to Third Rail Causes Rush of Racegoers to Trolley Cars.

A Coney Island train of five cars, filled with folks bound for the Suburban, left the Manhattan end of the Bridge at 2:10 o'clock yesterday afternoon, and had gone only a short distance when something happened to the third rail. There was an electric splutter and the train stopped.

After a delay of fifteen minutes or so, the train backed into the Manhattan station and a mob of racegoers piled down stairs to the trolley cars, overflowing them in a jiffy. Meanwhile all other trains were run back either to Brooklyn or Manhattan. The power was then shut off and the defective place in the third rail was fixed.

It was nearly an hour and a half before the trains began running across the Bridge again. Meanwhile passengers on the Brooklyn elevated roads bound for Manhattan walked downstairs and got transfers to the trolley cars.

DRANK AMMONIA FOR WHISKEY.

Practical Joke Lands a Negro in a Hospital in a Serious Condition.

Alexander Bryan, a colored servant at the Portland Hotel, 132 West Forty-seventh street, is in Roosevelt Hospital as the result of a practical joke. Bryan saw another negro going through the basement of the hotel yesterday with a bottle in his hand. This man, said to be Joseph Bastin, told Bryan that the bottle contained whiskey. Bryan drank half a glass of the liquid, which proved to be ammonia.

Bryan's tongue swelled so that he was unable to speak. Physicians at the hospital declared that his condition was serious. Bastin was arrested, and Magistrate Zeller in the West Side police court held him for examination on Saturday.

CRUSHED UNDER ELEVATOR.

One Killed, Two Injured by Breaking of the Cable.

A freight elevator used for hoisting trucks in Nauss Bros.' stable, at 166 East 123d street, fell from the second floor of the building yesterday afternoon, instantly killing William McGoun of 417 East 123d street, the foreman of the stable, and injuring Charles Cope and Karl Arnesen, stablemen, who were on the elevator when it fell.

Nauss Bros., who have a butcher shop at 2291 Third avenue, leased the stable four months ago. McGoun was at the bottom of the elevator shaft yesterday, hoisting a truck, and the other two were on the elevator helping him. When the elevator got to the second floor the cable broke with a snap, and it dropped to the basement. McGoun was caught beneath the machine. Cope received a broken ankle and Arnesen was cut on the head.
